

Graphing Project

Instructions: Open the file “US Statistics in Brief.doc.” Copy the data for each of the three categories of enrollment, expenditures and attainment, and create a graph for each. Each graph should be on a separate worksheet, each with a properly labeled worksheet tab (i.e. “Fall School Enrollment,” “School Expenditures,” and “Educational Attainment”). See the example below.

Education	1990	2000	2001	2002	2003
Fall school enrollment:					
Elementary (grades K-8) (in millions of dollars)	34	38.6	38.8	38.8	38.71
Secondary (grades 9-12) (in millions of dollars)	12.5	14.8	15.1	15.3	15.61
Higher education (in millions of Dollars)	13.8	15.3	15.9	16.1	16.41
